

# Marketing Coordinator

The role of Marketing Coordinator at Great Lakes Federal Credit Union is to work with management to develop and implement the delivery of financial products and services to our members.

This role can be full-time or part-time depending on what the right candidate is looking for. The ideal candidate will know how to work within a team to create content for social media and other mediums. At a small, growing company, each day may look different than the last, so the ability to communicate the various initiatives and the timelines will be key. This role is still new to us, so any candidate will continue to help define and refine it at the credit union.

Is this role for you? We don't know; that is why we are posting it and inviting anyone who is interested in marketing for a small, but growing company, where downsizing isn't in our vocabulary. We are continuing to look for ways to grow and add value to the membership. If you are interested in working at a company that has excellent benefits and is nimble enough to be flexible in how we deliver value to it's members, reach out and lets talk.
